Cronin and Company Welcomes Five New Clients to Our Roster

We're building EWM's brand with a new website, PR and search marketing. EWM is a leading specialist in investment and compensation plan design, implementation, and administration with offices in London, Zurich and the US.

The world leader in facilities management and facilities maintenance, FM specializes in restaurants and retail companies with multiple locations. We're helping them communicate to their customers through video, PR and web.

We're helping Bronx-based Montefiore stand out in one of the most competitive hospital environments in the US with an integrated branding campaign that includes TV, radio, web, print and transit.

The North American arm of Neopost SA is the world's second largest supplier of mailroom equipment. Our assignment? Direct marketing, of course. And some interactive work as well.

We're creating a logo (that's it to the left), tagline and web presence (including a new website) for the nation's largest physician management partnership dedicated to women's health.
